TIMOR-LESTE COUNTRY REPORT STATUS**

**6<sup>th</sup> CTI-CFF SENIOR OFFICIALS MEETING (SOM6)**

**10-12 November 2010**

**Manado, Indonesia**

## Timor-Leste Country Report Status

Source: Timor-Leste NPOA

Version: January 2010

GOAL	Target	Action	Activity	Target Date	Scale	Status	Regional Value	Rank
G2	T1-N GeoPri	1	Finalize rapid assessment and mapping of marine resources (coral reef, mangroves, sea grass, etc.) to define and identify coastal and marine priority areas	2011	Nat'l			
G2	T1-N GeoPri	2	Facilitate the incorporation of CTI results into other key Programs such as the National Biodiversity Action Plan (NBSAP), National Adaptation Plan of Action (NAPA), PoWPA (Program of Works on Protected Areas)		Nat'l			
G2	T1-N GeoPri	3	Complete measurements of pelagic and benthic primary production and respiration and finalize the estimation of ecosystem production for the South coast	2011	Nat'l			
G2	T1-N GeoPri	4	Complete study for sedimentation rates and changes in sedimentation rates in catchments in the South Coast (?) and propose improvements to current management practices	2011	Nat'l			
G2	T1-N GeoPri	5	Strengthen the laws and regulations providing the required enabling environment for coastal and marine spatial planning and management of coastal and marine priority areas to occur	2014	Nat'l			
G2	T1-N GeoPri	6	Generate an all inclusive, multi-sector investment program for Timor-Leste's priority marine and coastal areas	2013	Nat'l			
G2	T2-N ICM	1	Complete the development of coastal-marine spatial planning for selected priority management areas	2013	Nat'l			
G2	T2-N ICM	2	Implement integrated coastal-marine spatial plan for priority management areas (Jaku Island-Lore Fores; Atauro Islands; Batugade)	2014	District			
G2	T3-N KMgt	1	Finalize study on biological productivity as a basis to estimate Total Allowable Catch and fisheries licensing system	2011	Nat'l			
G2	T3-N KMgt	2	Finalize and implement fisheries recording and reporting systems to strengthen national fisheries statistics	2014	Nat'l			
G2	T3-N KMgt	3	Finalize draft National Legislations on marine resource conservation	2013	Nat'l			
G2	T3-N KMgt	4	Enforce all existing laws and regulations of particular importance to achieving EAFM and ICM	2012	Nat'l			
G2	T4-N Alt Liv	1	Finalize a rapid Nationwide assessment to identify and map fishery dependent communities at a national level	2010	Nat'l			
G2	T4-N Alt Liv	2	Start engaging with potential partners to define strategies to diversify the household income in fishery dependent areas (development of aquaculture, introduction of post harvest techniques and other value adding alternatives)	2010	Nat'l			
G2	T4-N Alt Liv	3	Start development of a white paper on Aquaculture, lining aquaculture activities to poverty alleviation, alternative livelihoods and climate change adaptation	2011	Nat'l			
G2	T4-N Alt Liv	4	Finalize an in-depth national census to better understand to (the?) role of fisheries in coastal communities livelihoods	2012	Nat'l			

G2	T4-N Alt Liv	5	Start implementing community-based fisheries management scheme in selected priority areas	2010	Nat'l			
G2	T4-N Alt Liv	6	Start a comprehensive participatory mapping exercise in priority areas	2011	Nat'l			
G2	T4-N Alt Liv	7	Develop a Aquaculture Development plan that will become part of Timor-Leste's coming National Development/Strategic Plan	2014	Nat'l			
G2	T4-N Alt Liv	8	Develop alternative income generating package program, including capacity building and support for the small-scale enterprise at the community level (e.g., marketing) ready to submit for (to?) present in Timor-Leste's Development Partner Meeting in 2015	2014	Nat'l			
G3	T1-N PA	1	Finalize National Grand Strategy on PAs and PA network development	2011	Nat'l			
G3	T1-N PA	2	Finalize zoning and management plan for Nino Konis Santana National Park (both Marine and Terrestrial)	2012	Nat'l			
G3	T1-N PA	3	Propose to the Council of Minister the formal declaration of two new protected areas: Atauro, Batugade	2013	Nat'l			
G3	T1-N PA	4	Explore possibility of having <i>Lamsanak</i> and <i>Behau</i> included in the priority area list	2013	Nat'l			
G3	T1-N PA	5	Start a discussion with the Indonesian Government on the establishment of a trans-boundary protected area network	2014	Int'l			
G3	T1-N PA	6	Develop and implement capacity building activities targeting mainly Environmental Managers in the Fisheries, Environment and Forestry Directorates (central Government) and local government officers	2010	Nat'l			
G3	T1-N PA	7	Finalize study on cost estimate and sustainable financial plan for protected areas such as Atauro and Batugade	2014	Nat'l			
G3	T1-N PA	8	Strengthen ecotourism sector contribution to protected area sustainable management of coastal and marine resources	2014	Nat'l			
G3	T1-N PA	9	Start the cost-benefit analysis for the adherence to <i>CITES</i> , and <i>RAMSAR</i>	2010	Nat'l			
G3	T1-N PA	10	Start a cost-benefit analysis to join the IUCN	2010	Nat'l			
G3	T1-N PA	11	Finalize assessment on threat status of species under different ecosystem categories to culminate the gaps identified by NBSAP	2011	Nat'l			
G3	T1-N PA	12	Start discussion on the development of a threatened species act and produce at least on (one?) draft management plan for the most threatened species and/or habitat identified by NBDSAP	2012	Nat'l			
G4	T1	1	Start vulnerability and adaptation assessments of urban centers and reef-dependent rural communities	2010	District			
G4	T1	2	Complete an analysis of relevant law and policy and develop recommendations to improve policy coherence and integration of climate change into national development and food security strategies	2010	Nat'l			
G4	T1	3	Develop an institutional and legal framework for marine and coastal climate change adaptation (including a NAPA and actions as part of a commitment to UNFCCC).	2011	Nat'l			
G4	T1	4	Implement a range of interventions to increase the adaptive capacity of communities in two demonstration sites (Atauro and Batugade)	2012	Local			
G4	T1	5	Start a comprehensive baseline survey of coral reefs and socio-economic indicators to be used to evaluate performance of climate change adaptation investments	2011	Nat'l			

G4	T1	6	Implement a comprehensive community awareness programme, including a range of civil society initiatives, education programmes in school, as well as government officials in national and local government	2011	Local			
G4	T1	7	Implement a capacity development programme for national agency staff (including at provincial or district level) and community leaders to support community-based adaptation initiatives. A particular focus of these initiatives will be to nurture and promote women as leaders in government and civil society institutions	2011	Nat'l			
G4	T1	8	Continue coastal rehabilitation program to anticipate climate change impacts. Priority will be given to mangrove rehabilitation in Ulmera, Tibar, Manatuto, and Hera	2011	District			
G4	T1	9	Develop alternative scenarios of the likely consequences of population growth, mobility, urbanization, fishery collapses and so forth and using these to guide policy development at national and regional fora	2011	Nat'l			

### LEGENDS FOR THE WORKSHEET

STATUS	Status of NPOA Action or Partners Activity
0-Proposed	Has: need, mandate. Does Not Have: TOR, budget
1-Planned	Has: TOR, Budget. Does Not Have: Action on Ground
2-In Progress	Has: Action on the ground
3-Closing	Has: People on ground. Does not Have: Future Activity with same funds

REG VALUE	"Regionality" or Regional Value of NPOA Action
Collective Action	Requires collective action
Collective Plan	Applies collective planning but parallel, independent action
Similar Practices	Applies independent but similar action (i.e. best practice)

RANK	Importance of NPOA Action to Address Regional Goal
High	Critical, Needed as first action for other steps, highest cost/benefit
Med	Very Important, but not time sensitive, or lower cost/benefit
Low	Important, but not time sensitive, or smaller impact
